

VIDUSHA WIJEKOON

B.Eng. in Software Engineering & Full Stack Developer

Software engineering and full-stack development with 4+ years of experience in web development, e-commerce, CRM, and ERP development. I have displayed during my career commitment, perseverance, rapid learning of new technologies, attention to detail, being result-driven and productive, and always being a good team member. That loves development, perfect solutions, and various methods. Clean code and the newest technologies create and maintain websites.
